

Shafer Scoop

City of Shafer is an Equal Opportunity Provider and Employer

September 2020

EFFECTIVE TUESDAY, MARCH 17, 2020 AND UNTIL FURTHER NOTICE

Due to COVID-19 concerns Shafer City Hall will be closed to outside personnel during office hours. If you have any questions, please contact the City Clerk at 651-257-4726 ext 0 Or email: cityhall@shafermn.com

If you come to city hall please knock on the door during business hours. Please call ahead so we can make arrangements to keep both you and city staff safe.

Water Bill Reminder-!!

Just a reminder that the last quarterly water bills were sent out the first week of July with a due date of August 3, 2020. After August 3 a late fee of \$25.00 was applied to all delinquent accounts.

Due to the COVID-19 Pandemic no water shut-offs will take place in August.

However, any delinquent utility bills as of September 1, 2020 will be certified to Chisago County for collection with the 2021 property taxes.

Call City Hall 651-257-4726 EXT 0 if you have any questions.

For your convenience there is a blue drop box for payments outside the city hall entrance.

The city currently only accepts Cash, Check or Money order for payments.

The closest thing to an online payment option is to set up "Bill Pay" with your bank.

2020 Election Dates & Info

Polling location for the City of Shafer is: Shafer City Hall, 17656 303rd St, Shafer, MN 55074

Tuesday November 3, 2020 - General and City Election Day

There are 2 seats (4-year terms) that are up for election this year: 2 Councilmember seats will be on the ballot on November 3, 2020.

Hours for the General Election are 7:00am to 8:00pm at Shafer City Hall, 17656 303rd Street, Shafer, MN 55074.

You can learn more about elections at the Minnesota Secretary of State website at this link:

www.sos.state.mn.us/elections-voting/

If you want to vote early or by mail-in ballot please contact the Chisago County Auditor-Treasurer Department:

Phone 651-213-8500

Website: <https://www.chisagocounty.us/140/Absentee-Voting>

DRINKING WATER PROTECTION

In August 2020, the city sent full-color brochures to every water customer in the city. This brochure was to help educate and familiarize the importance of backflow prevention and keep our city's drinking water safe. Following are some excerpts from that brochure:

One of our primary and most important roles as a public water agency is to ensure that we deliver safe, potable water to your home or business. Part of providing a safe supply of water is preventing potential cross connections between our distribution system and other water sources. The City's distribution system is designed to keep water moving in one direction, from our wells to our customers. However, sometimes hydraulic conditions change, and the water flow can be reversed. This creates a backflow condition, which causes the potential for contaminants to enter Shafer's water distribution system and possibly cause acute health issues.

For this reason, the Minnesota Department of Labor & Industry (DLI) adopted the national plumbing code effective January 23, 2016 which requires that all water purveyors establish a Cross Connection Control and Backflow Prevention Program. An important component of this program includes the municipality's responsibility to educate the public. This education is to not only explain the causes and effects involved with backflow and cross connections, but to also make residents aware that they may already have a testable backflow device or may be required to install one to help protect our drinking water.

BACKFLOW IN A RESIDENTIAL SETTING

In a normal house, backflow could occur if a water main break or a fire occurred in your neighborhood. Events like these and other similar events can cause a sudden drop in water pressure, creating the potential for water to flow backwards into the city watermain.

BACKFLOW IN AN INDUSTRIAL SETTING

In an industrial setting, backflow can occur when a non-potable water system operating under high pressure (by means of a pump or boiler) is connected to the drinking water system. If pressure is suddenly lost in the city main, water from the non-potable system will be sucked into the public drinking water system.

DO I NEED TO GET MY DEVICE TESTED?

Yes, it must be tested by a certified and licensed backflow tester (approved by DLI). Inspection reports must also be filed with the City of Shafer. The following situations would warrant a test being needed:

1. Immediately after installation.
2. Annually.
3. After device has been relocated, repaired, or replaced.
4. Under other circumstances the City deems necessary.

SURVEY QUESTIONS

| Location Survey Questions | Check if Yes* |
|---|--------------------------|
| Do you have a lawn irrigation system? | <input type="checkbox"/> |
| Do you have a boiler? | <input type="checkbox"/> |
| Do you have a pool, spa or hot tub connected to the water supply? | <input type="checkbox"/> |
| Do you have any other alternate water sources on the property such as wells, ponds, etc.? | <input type="checkbox"/> |

*If you have checked Yes to any of the above questions you most likely have a backflow prevention device that needs to be tested annually and rebuilt every 5 years.

If you have any questions about your backflow device please contact Shafer Public Works at 651-257-7604.

For more information go to www.safewatercommission.com

Watch the Skies for Severe Weather

With the chance of severe weather still upon us, this is a reminder that severe weather warnings are indicated by a long steady tone from the city's siren.

Building Permits are required for most projects-when in doubt CALL City Hall

Building permits/zoning permits are required for most projects, including decks, fences, sheds and pools. Check the city’s website for application forms.

If you are not sure if your project needs a permit, call City Hall 651-257-4726 ext 0 or call Building Official Jack Kramer at 651-351-5051. If a project is done that requires a permit without obtaining one, the fees are doubled.

Also, NO WORK MAY BE DONE IN THE CITY’S ROAD RIGHT-OF-WAY WITHOUT A PERMIT. (Driveways and irrigation systems to name a couple possible items).

Please check the city’s website for all city codes and information:

www.shafermn.com or contact city hall 651-257-4726 ext 0

Do not flush!!!

Do not flush articles of clothing, wipes, feminine hygiene products, paper towels and medication. Despite some product labeling as flushable, certain items do not break down during the Wastewater Treatment process. They can cause expensive repairs when they clog up the sewer lines. Please dispose of trash appropriately.

Unused and/or expired medication (prescription and over-the-counter) needs to be disposed of properly. There is a **free** drop-off site at the Sheriff’s Office located in the new Public Safety Building at 15230 Per Rd, Center City.

Shafer Compost Site is Open

Beginning April 18, 2020 the Shafer compost site is open for the season from dawn to dusk, 7 days a week. The compost site is to be used by Shafer residents only and **can only be used to dispose of grass clippings, leaves and branches up to 3 inches in diameter.**

THIS IS A COMPOST SITE NOT A TRASH DUMP!

If we continue finding trash or other unacceptable items the compost site will be closed.

Please be considerate of your neighbors and don’t dump junk here.

**NO STUMPS, NO TRASH, NO GARBAGE,
NO APPLIANCES, NO RECYCLING ACCEPTED!**

Shafer/ Franconia Fire Department News

Please recycle your cans in the can collection bin on the west side of the fire department. All proceeds go to the fire department.

17656 303rd Street
Shafer, MN 55074

ADDRESS CORRECTION REQUESTED

City Notes

City offices will be closed Monday September 7, 2020 for the Labor Day Holiday.

EVENT CANCELLATIONS

Unfortunately, the following events for 2020 have been cancelled due to the COVID-19 Pandemic:

September – Shafer Days

We are looking forward to getting back on track for 2021.

Report street light outages

If you notice street lights out in your neighborhood or anywhere in the city, please make note of the pole location (closest street address and cross street) and contact city hall 651/257-4726 ext 0.

We will report any outages as quickly as possible to Xcel Energy.
